BELT & ROLLER CONVEYORS

SS Engineers & Consultants manufactures numerous types of conveyors. Benefits of these conveyors include: stainless steel construction; full-engineering capabilities included; available attachments as well as installation; sanitary standards up to and including ready-to-eat; and high-pressure wash down capable. Big or small, the company can and will design a product that is right for any company, for any application. The hygienically designed troughed belt conveyors are specifically meant for the food industry. The number one recommendation to processors when selecting sanitary equipment is that the machinery should be "cleanable to a microbiological level." Food equipment and particularly belt conveyors must be constructed to ensure effective and efficient cleaning of the equipment over its life span.
